

## Key Terms

### Chapter 1

Biology  
Control group  
Controlled experiment  
Dependent variable  
Homeostasis  
Hypothesis  
Independent variable  
Inference  
Law  
Observation  
Qualitative  
Quantitative  
Theory

### Chapter 2

Adhesion  
Amino acid  
Atom  
Carbohydrate  
Catalyst  
Chemical reaction  
Cohesion  
Compound  
Covalent Bonds  
Electrons  
Enzyme  
Glycerol + Fatty Acids  
Hydrogen Bond  
Ionic Bonds  
Lipid  
Monomer  
Monosaccharide  
Neutrons  
Nucleic acid  
Nucleotide  
Polymer  
Products  
Protein  
Protons  
Reactants  
Solute  
Solution  
Solvent  
Substrate
